

REMARKS

The present Supplemental Amendment has been prepared to properly show the specific change to the table in the specification at pages 20-21, in view of the Supplemental Amendment filed July 31, 2006.

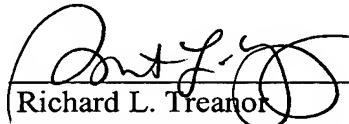

Applicants submit that the error and correction to the error are obvious. In particular, the table incorrectly recites two occurrences of the surfactant "PEG-20 glyceryl triisostearate". The recitation is a typographical error in the translation of the text of the original French application, which is based on the present application. Accordingly, the first occurrence of the surfactant has been removed.

No new matter has been added.

Accordingly, entry of the amendment is requested.

Respectfully submitted,
